

My Day

Canton Jones

[Chorus:]

Today is gonna be a good day [x8]

For some reason

I woke up on the right side of the bed
And YOU were the first thing in my head
I can't complain but I praise YOU instead
Cause it's my day

It's my season and I will start with my own attitude
I'll express my love and gratitude
Cause my attitude will change my latitude
Things will go my way

[Chorus:]

Cause it' my day
Today is gonna be a good day [x8]

Today

I'll let go what's happen in my past
And the time that I had somehow finished last
I'll ball it up and throw it in the trash
Cause it's my day

I'm smiling

Cause I know that today is the day
I'm happy now because of yesterday
But I'm happy cause I'm starting with today
Things will go my way

[Chorus:]

Cause it's my day
Today is gonna be a good day [x8]

I'm tired of getting up in the morning with the same old rutt and same old cutt
Buggin me

The doctor keep druggin me and I'm sluggish and I can't get out of bed
But instead I'm a look to light man
Start livin my life man
I will do right man

Fly like a kite man
I was doing wrong to long and I'm sick and tired of singing sad songs
I'm a kick them bad songs (?)

I will not wait on anythings to happen
I will make it happen
I will take some action now

Await on another day
God said make your way
I will take today

[Chorus:]
Today is gonna be a good day [x8]

This is the day that the Lord has made it's gonna be a good day
An I will rejoice and be glad and it is gonna be a great day

For this is the day that the has Lord made it's gonna be a good day
And I will rejoice
Because it's my day
