

Nothing Burns Like the Cold (feat. Vince Staples)

[Snoh Aalegra](#)

Can we talk about us
Like we care about us?
Can we talk about love
Like we care about love?
You say let it breathe
But this pain in my heart can't let it be
We both can't agree
Then tell me what is the point of...
Nothing burns like the cold air, air
Can we talk about us
Like we care about us?
Can we talk about love
Like we care about love?
We can't let it be
'Cause we live in a time of make-believe
We both can't agree
That we're reachin' the point of...
Nothing burns like the cold air, air
Good mornin', darlin'
I see you fallin'
In and out of love
Is it because you're cold and heartless?
Or is it our withdrawals?
Forgotten how to be a part of
That final scene in Casablanca
I guess the heart is like a time bomb
No white horse for you to ride on
Bygones be bygones
My God, you're beautiful
If it was two of you
Prolly break the first one's heart in two
But second time's a charm
I had a dream you locked your father's arm
And mosied down the aisleway
I know you prolly had a wild day
So you should make your way to my place
And we can talk about the things you wanna talk about
You know, I know
You know, yeah you
You know, I know

You know
Nothing burns like the cold air, air
Nothing burns like the cold air, air
Nothing burns like the cold air, air
They say nothing burns like the cold
I get, get, get
Get, I get
