

# The Way She Rides

Luke Combs

[Verse 1]

Screamed into the driveway, with my foot stuck on the gas  
Had the Crown mixed up in a Dixie cup, when she hopped into the cab  
She said "Boy what you got in store, what we getting into tonight?"  
Hell, I don't care, It ain't here nor there, just as long as you're by my side

[Chorus]

Whether she's sitting shotgun with her hair done  
Or with the seats leaned back and the radio on  
On the backstreets, in the backseat  
Those baby blue eyes staring back at me  
Whether it's in park or it's in drive  
I love the way she rides

[Verse 2]

So we hit that ground a running, throwing caution to the wind  
And it wasn't long before that drink was gone, and she was shakin' that ass again  
She said find somewhere dark where we can park, and put a hurtin' on this bottle  
So we said goodnight to the city lights, kicking it in full throttle

[Chorus]

Whether she's sitting shotgun with her hair done  
Or with the seats leaned back and the radio on  
On the backstreets, in the backseat  
Those baby blue eyes staring back at me  
Whether it's in park or it's in drive  
I love the way she rides

[Chorus]

Whether she's sitting shotgun with her hair done  
Or with the seats leaned back and the radio on  
On the backstreets, in the backseat  
Those baby blue eyes staring back at me  
Whether it's in park or it's in drive  
I love the way she rides  
The way she rides  
The way she rides, yeah, yeah

The way she rides
