

In Your Corner

Ella Vos

[Verse 1]

You get home from work like a kite in a hurricane
Too many thoughts are clouding up everything

[Pre-Chorus]

Why do we always learn the hard way?
Why've we been here and gone again?

[Chorus]

Cause I'll stand in your corner
Cause I'll stand in your corner
Could've done more
Should've been there
No more wasting precious time
Cause I'll stand in your corner

[Verse 2]

Stay by my side, you're walking against the wind
Look through my eyes, I'm going where you ain't been

[Pre-Chorus]

Why do we always learn the hard way?
Why've we been here and gone again?

[Chorus]

Cause I'll stand in your corner
Cause I'll stand in your corner
Could've done more
Should've been there
No more wasting precious time
Cause I'll stand in your corner

[Bridge]

Lean on my windowsill
Look at how far we've come
And everywhere we'll go

[Chorus]

Cause I'll stand in your corner
Cause I'll stand in your corner

Could've done more
Should've been there
No more wasting precious time
Cause I'll stand in your corner
