

# Cult Logic

Miike Snow

All my life I've been the slave of consequence,  
wondering how this life could be so intricate,  
I wanna rewrite my heart and let the future in,  
I wanna open it up and let somebody in. Can you free me from the logic that I knew,  
I'll believe it even if it's not true. Am I falling asleep on my feet again?  
I call out, is anybody listening?  
And it's like I'm diving into emptiness  
but at least there's something beating in my chest.  
Will you free me from the logic that I knew,  
I'll believe it even if it's not true.
