

# Gasoline (feat. Laura White)

## Cash Cash

[Verse 1]

Crash into me like a car  
Hit me with adrenaline  
I know that we shouldn't start  
Turning up the heat again  
Oh, no

[Pre-Chorus]

Don't open the windows  
Don't let any air in  
Don't need innuendos  
Wearing what your wearing  
Ain't no way to say no  
Caught up in the tension  
You got my attention

[Chorus]

There's no end to you and me  
It's like putting out, fire with gasoline  
And when we got so close, it's hard to breathe  
It's like putting out, fire with gasoline (gasoline, gasoline)  
With gasoline  
With gasoline  
There's no end to you and me  
It's like putting out, fire with gasoline

[Verse 2]

Why do I come when you call?  
We don't even get along, oh, nah  
Chemically our chemicals are dangerously beautiful  
Oh, right

[Pre-Chorus]

Don't open the windows  
Don't let any air in  
Don't need innuendos  
Wearing what your wearing  
Ain't no way to say no  
Caught up in the tension  
You got my attention

[Chorus]

There's no end to you and me

It's like putting out, fire with gasoline  
And when we got so close, it's hard to breathe  
It's like putting out, fire with gasoline (gasoline, gasoline)  
With gasoline  
Fire with gasoline

[Bridge]  
Crash into me like a car  
Hit me with adrenaline, yeah  
I know that we shouldn't start  
Turning up the heat again, oh, nah  
Fire  
It's hard to breathe  
Fire (yeah)

[Chorus]  
There's no end to you and me  
It's like putting out, fire with gasoline (it's hard to breathe)  
And when we got so close, it's hard to breathe  
It's like putting out, fire with gasoline (gasoline, gasoline)  
With gasoline  
With, with gasoline  
With gasoline
