

# Somebody Loves Me

## Sister Sledge

Here I am again, alone in my lonely room  
How can I believe you loved me?  
Here I sit, just thinking of it  
All the time that we spent together

We were holding hands  
Making lots of plans, the good things  
A lover and a friend to me  
You were so easy to love

How can I believe  
That somebody loves me?

What happened boy, to the love we shared  
How can I believe you loved me?  
I just need to know that you cared  
Honetly, is the love still there?

And if you me like you say you do  
Why don'e we make plans for two?  
All I need is some kind of sign

How can I believe  
That somebody loves me?

How can I believe  
That somebody loves me?  
How can I believe  
That somebody loves me?

How can I believe  
That somebody loves me?  
How can I believe  
That somebody loves me?

How can I believe  
That somebody loves me?  
How can I believe  
That somebody loves me?

...
