

# Overtime

## Big Sean

Yeah, woah, woah  
I just been feeling like, it's all clickin', ya know?  
Hit-Boy Like it's all working out, and I'm 'bout to work out  
Colossal  
B.I.G, look  
The universe been throwing me all the signs except stop it  
Niggas been plotting on me, but here's the plot twist  
I can't throw fits no more unless it's profits  
Lord, why you keep boxing me in, 'cause I'm God's gift?  
I might set my mic back up in the closet, though  
Just to give myself that same feeling from '04  
When my hunger was more, advice to you and yours  
They say it's over for you, that's when you go overboard, okay?  
Shit, I didn't take a break, my nigga, I broke  
Broke my heart, broke my soul, don't cry for me though  
If you don't break nothing down then it's no room to grow  
One mental block lead to another, shit it's dominos  
Mixtape Sean, but I'm in album mode, ooh  
She give me praise, I love her angel face  
Ass so fat she could work at TSA (Damn)  
I went to school at Cass, Aaliyah went to DSA a mile away  
Just letting you know the types of kings and queens my city make  
And I probably need a parade  
All the soldiers with me, this shit like green beret  
So legendary, I'ma probably need a day (June 29th)  
Forgot I already got one, be dammed if I'm not one  
You talking 'bout the hottest in the city  
Most influential rappin' ass niggas and I'm the top one  
Me and Em' knocked down doors for y'all that was locked once  
I know they may never get me  
I still put on for the city like the Lions first round picked me  
I ain't been fucking I been too busy, I got two phones they both business  
I got fake ones tryin' to end me  
I got real ones gon' defend me like a fucking co-defendant  
I got Don Life on my pendant, I'm conditioned to do the distance  
And I just set up the pensions, family set like my intentions  
Been balancing trying to keep my company  
With the girls who wanna keep me company  
You know the ones who claim they over me  
But would much rather be under me  
Is confident and been through too much just to be done with me  
And you know that shit gets stressful right?

Shit taxing, the same thing that got Wesley Snipes  
And you know how I'm rocking, rocking Elvis Presley white  
You know highlight reelin'  
All highlights like we sitting on top of museum ceilings  
No more resisting  
If you ain't on my frequency, you out of tune and not tuned in  
To break the unbreakable, escape the unescapable  
'Til you push your fucking limits, you don't even know what's capable  
Fuck that shit that you believe in, I believe in me  
Talkin' on they phones and PC like they off that PCP  
Bitch, I spit that Eazy-E, face to face, Smack DVD  
I don't got no time for hanging out and all that E-T-C  
Just cut the check, C-T-C, Godbody my physique  
I can look inside your eyes and know exactly what you mean  
Fuck you mean? Energy the first language that I speak  
No facade, I belong in the Palace of Versailles with a queen by my side  
In this hot girl summer, I'm just trying to find a wife  
Visualizing from every island that's on Hawaii  
With my team on each side, like ha-ha-ha-ha-ha  
With the last laugh like Kawhi  
And you know that you that one when you beat all the other odds  
I keep one foot planted at home and the other one on a swivel though  
Gotta keep 'em both 'cause this shit get way too pivotal  
All the work is analog, all the payment digital  
When tempers tend to flare up, I'm the one to be cool since preschool  
I know which ones that's been rocking with me, dawg, since the prequel  
Just be cool  
I know your favorite one, dawg, I'm 'bout to drop the sequel  
Nigga, this just the preview  
Don  
Strike to claim it, a strike to claim it  
And he got it  
Goddammit, yes, that is why I did it  
Another five, are you kidding me?  
That's right  
Who do you think you are?  
I am
