

# Razor Blade

Luke Bryan

You're not looking for anything more  
than a good time and an open door  
A good band and a dance floor.  
Then she walks in  
You gotta pick up line to throw  
but she walks up and says hello  
Before you can even let it go she's got you reeled in  
You can't escape it if you wanted to  
You don't know what you got yourself into You blind folded walking south down the whiskey  
tracks  
She's rolling north like a neon train  
Bolt of lightning in the night speed of light  
You won't realize you've been struck 'til you see the flame  
Her smile will slice you to the heart  
There you are in the back of a bar  
Bleeding but feel no pain  
She won't cut you like a knife like a knife  
That little look in her eyes will cut you like a razor blade  
You ain't used to playing by these rules  
So you sit there and try to play it cool  
Do your best not to play the fool  
But it's too late now  
You want to see how far she'll let you go  
She'll let you think you're in control You're blind folded walking south down the whiskey tracks  
She's rolling north like a neon train  
Bolt of lightning in the night speed of light  
You won't realize you've been struck 'til you see the flame  
Her smile will slice you to the heart  
There you are in the back of a bar  
Bleeding but you feel no pain  
She won't cut you like a knife like a knife  
That little look in her eyes will cut you like a razor blade You can't escape it if you wanted to  
You don't know what you got yourself into  
You're blind folded walking south down the whiskey tracks  
She's rolling north like a neon train  
Bolt of lightning in the night speed of light  
You won't realize you've been struck till you see the flame  
Her smile will slice you to the heart  
There you are in the back of a bar  
Bleeding but you feel no pain  
She won't cut you like a knife like a knife  
That little look in her eyes will cut you like a razor blade

She won't cut you like a knife like a knife  
That little look in her eyes will cut you like a razor blade  
Cut you like a razor blade  
She cuts you like a razor blade
