

# Turn This Love Around (feat. Laura V.)

Armin van Buuren & NERVO

What's the point of hiding  
We know what's here inside  
We know we can't deny  
I don't know how to start it  
But I won't give up this fight  
'cause I 'gotta know we tried  
There's no reason we should stop believing  
we can turn this love around  
we can do this  
I know we'll get through it  
If we turn this love around  
Turn it around  
Baby, turn it around  
Turn this love around  
Daylight turns to darkness  
Seasons fade away  
But I know nothing here has change  
'Cause we're getting through the heart aches  
And some would fall astray  
But I know our love still remains  
There's no reason we should stop believing  
We can turn this love around  
We can do this  
I know we'll get through it  
If we turn this love around  
Turn it around  
Baby, turn it around  
Turn this love around  
I know we can  
Don't give up on that  
Turn this love around
