

# Queens Don't

RaeLynn

I wasn't raised in a castle  
I grew up on the outskirts of town  
No dresses with golden tassels  
The rings on my hand are handed down But I'm gonna find the one that needs me, see's me  
And treats me like I'm already royalty  
There ain't nothing priceless on my wrist  
I might not fly private, but that don't mean I ain't a queen Queens don't hate, queens don't fight  
Queens don't stay unless their king treats her right, oh  
Every jewel on my crown, you better believe I earned it  
Won't keep people around that don't believe I deserve it  
No, queens ain't fake  
A queen's gonna rule just the way she was made, oh  
I ain't 'bout to let nobody come and take me off this throne  
Some girls might, but queen's don't  
No, I don't need the tallest tower  
To prove to anyone I ain't weak  
I turn my pain into power  
Every tear's a diamond on my cheek Queens don't hate, queens don't fight  
Queens don't stay unless their king treats her right, oh  
Every jewel on my crown, you better believe I earned it  
Won't keep people around that don't believe I deserve it  
No, queen's ain't fake  
A queen's gonna rule just the way she was made, oh  
I ain't 'bout to let nobody come and take me off this throne  
Some girls might, but queen's don't Queens don't break, they just get stronger  
There ain't nothing they can't conquer  
Queens don't hate, queens don't fight  
Queens don't stay unless their king treats her right, oh  
Every jewel on my crown, you better believe I earned it  
Won't keep people around that don't believe I deserve it  
No, queen's ain't fake  
A queen's gonna rule just the way she was made, oh  
I ain't 'bout to let nobody come and take me off this throne  
Some girls might, but queen's don't
