

Good People

Little Big Town

They say you are who you hang with
It's no coincidence I wanna hang with you
Rise and fall together, travel is better in twos

Sometimes it feels like a magnet
The way that crazy always sticks with its own kind
Don't believe in ESP
But you can read my mind

[Chorus](x2)
Good people know
Good people know
Good people

A good friend would bail you out of jail
But a better one would be handcuffed to you
Everyone's a winner when all the winners loose

[Chorus] (x2)

[Bridge]
They can always spot another one when they're nearby
No matter where you land you're gonna find

[Chorus](x2)

We're guilty by association
Keeping company with ornery company
Running round with rogues and rounders
Cause we believe

[Chorus](x2)+[Bridge]

[Chorus](x2)
