

# Come Closer (feat. Queen Naija)

## A Boogie wit da Hoodie

Hitmaka

Oh-oh, oh, yeahLet's take a jet to Aruba

I know it sounds nice, ooh

You gon' fall into my trap

You gon' fall right through

Even when you're with your

Lover and your phone's on mute

When I call you an Uber

You gon' come right through

Need to cry you a river

If you lie, won't forgive you

And I won't ever, ever trust you

And I won't ever, ever miss you

And yeah I love my baby mother

But if she fuck another nigga

I won't ever, ever touch her

And don't you ever get it twisted

Yeah, I'ma cry me a river

Just get it out your system

You know how much I really want you

You know I'll never ever forget you

Way too much time spent on strippers

Ain't mean to cut you out the picture

I don't mean to be callin' you "bitch" and shit

But I be buggin' off the liquor

The muscle relaxant was workin'

Throwin' it back while she squirtin'

Don't need surgery, you're perfect

Remember when bitches was curvin'

Can't no nigga get you Birkins

Every time you think I'm lurkin'

All my clothes, you were burnin'

Oh that's how you feel? That's the word, yeah

Come closer

All I ever needed was some closure

Come closer

All I ever needed was someYou told me that you need some closure

You said come over

I don't need to take no Uber, I drive a Rover

Tryna bribe me with a bag, wait, nigga, hold up

If you ever try to play me, nigga

You's a whole dub, whole dub

Always got what I wanted  
Never asked nobody for nothin'  
I can take a trip to the islands alone  
But if you want it you  
Gotta come with somethin' new  
I don't know what's wrong with you  
So over your petty games  
You're getting way too comfortable  
Oh-oh, oh  
Gettin' real comfortable treatin' me like a regular  
Don't bring out the worst in me when  
I bring out the best in you  
Boy, I ain't average  
Don't make me turn savage  
I need you to see that I'm no regular girl  
Come closer (Oh-oh, oh-whoa)  
All I ever needed was some closure  
(Needed some closure)  
Come closer  
All I ever needed was some closure  
(All I ever needed was some closure) Come closer, oh, oh  
(All I ever needed was some closure)  
Come closer, oh, oh  
All he ever needed was some closure
