

One Night of Peace

New Kids On the Block

When we are born
We are born in innocence
When we step into this world
We know only love
So when we hate
It doesn't come naturally
We gotta unlearn it
Before it's too late
(There's no time to waste)
No time to waste, we got...One life, one love, one birth, one dream
For just one night
If we only believe
Every race and color
All religions, every creed
We can come together
Stop the world for just one night of peace
Let's erase all borders
From the mountains to the sea
We can come together
Stop the world for just one night of peaceChange
It doesn't come easily
But we have the power to spark the fire
To feed the flame
(We can feed the flame, gonna feed the flame)
Keep it burning, we got...One life, one love, one birth, one dream
For just one night
If we only believe
Every race and color
All religions, every creed
We can come together
Stop the world for just one night of peace
Let's erase all borders
From the mountains to the sea
We can come together
Stop the world for just one night of peacePut down your sword, tear down these walls
Tonight we leave behind
The darkest of days, let a light lead the way
To a better place, we gotOne life, one love, one birth, one dream
For just one night (Come on now)
One life, one love, one birth, one dream
For just one night
If we only believeEvery race and color

All religions, every creed
We can come together
Stop the world for just one night of peace
Let's erase all borders
From the mountains to the sea
We can come together
Stop the world for just one night of peace
