

Alienated

Keri Hilson

(yea)Verse:(oohhhhhhhh ohh oh yea yea yeaaaaaa)

(where did you go)

since i've become a shooting star

i've been wondering where you are

seem like your forever in a deerway

momma told me, it would happen to me one day

feels like we've been apart for some light years

creater in my heart

filled with my tears

stars in line

i'll be yo girl again

(what i'm trynna say)

want you back in my world again

hook:

Your the reason i dont change my number

what you to know its still the same

and i bet you remember that summerwhen we kicked it everyday

dont know how it happen

just happened

kinda like we

faded away

and i feel so alienated

(dont you feel so) alienatedChorus:

i miss you and i want you back

i lost yo signal, where you at

and i dont know how we lost contact

where did you go

im searching for you,

cant get you outta my system

outta my system

outta my system

cant get you outta my systemoutta my system

outta my system

cant get you outta my system

outta my system

outta my system

where did you go

im searching for youuuVerse:sittin, watching time passing by me

voices in my head asking why me

im here wish you would stop by my place

but the only time we talk is on myspace
