

Girl (feat. KAYTRANADA)

The Internet

Girl
They don't know what you're worth
Tell 'em you're my girl
and anything you want is yours
mm, yeah Passion burning
causing rapture of laughter
Pressure building
falling faster and faster
If I told you that you rock my world
I want you around me
Would you let me call you, my girl?
My girlfriend, my girlfriend
I could give you the life you deserve
Just say the word, baby and I gotcha
Hey, darling, I gotcha

Girl
They don't know what you're worth
Tell 'em you're my girl
and anything you want is yours
mm, yeah Chapters turning
so old fashion and natural
Potions got me falling for ya
baby
If I told you that you rock my world
I want you around me, yeah
Would you let me call you, my girl?
My girlfriend, my girlfriend
I could give you the life you deserve
Just say the word, I gotcha

Girl
They don't know what you're worth
Tell 'em you're my girl
and anything you want is yours
mm, yeah Girl
They don't know your worth
Tell 'em you're my girl
anything you want is yours
