

# Valentino

## 24kGoldn

I don't want a valentine  
I just want Valentino  
I just want the neck I poker face like a casino  
Deep throat  
Know I get it in like a free throw Shawty want some more She just can't seem to keep her knees  
closed I fuck her long  
Ain't no Minute Maid  
My diamonds lemonade  
Flexing hard, call me Popeye  
Wallet filled with spinach ayy  
Cut you off on the interstate  
I'm first to finish, ayy  
I'm a young rich nigga  
Bitch it's always been that way  
To the grave, might just be tomorrow  
Might just be today  
So i always live it up  
We poppin bottles  
Poppin kays  
Gucci shades from my boujee bitch  
Ain't even had to pay  
Had to put on for the team  
And had to put on for the bay  
I'm so fly when I rock robins wings  
I can't stay in one place  
Russian cremes in my rocket ship  
We go to outer space  
Mask off, mask on, fuck it  
I can't catch a case  
Blast off, blast off  
See the stars up in wraith  
You can't get into the crib  
Because the mansion got a gate  
You can't come into my section  
I'm gon' put you in your place  
If the club goin' up  
You bet I'm sliding like a chase  
And i think I fell in love  
She shook that ass up in my face I don't want a valentine  
I just want Valentino  
I just want the neck  
I poker face like a casino

Deep throat  
Know I get it in like a free throw Shawty want some more She just can't seem to keep her knees  
closed (She just can't seem to keep her knees closed) I don't want a valentine  
I just want Valentino  
I just want the neck  
I poker face like a casino  
Deep throat  
Know I get it in like a free throw Shawty want some more  
She just can't seem to keep her knees closed (She just can't seem to keep her knees closed) I  
don't want a valentine  
I just want Valentino  
I just want the neck  
I poker face like a casino  
Deep throat  
Know I get it in like a free throw Shawty want some more She just can't seem to keep her knees  
closed I don't want a valentine  
I just want Valentino  
I just want the neck  
I poker face like a casino  
Deep throat  
Know I get it in like a free throw Shawty want some more She just can't seem to keep her knees  
closed
