

Was It Something I Said (feat. Cavetown)

MyKey

Guess it's time for a sadboy kiss & tell
You ruined my life but i wish you well
I lied about the second part oh well
Yeah quit leaving me voicemails about your pain
Shouldn't have to listen to the shit you say
Why'd you even bring it up in the first place Was it something i said
That made you anxious yeah it made you upset
Made you call me back at 3am
Just to tell me your defense
Was it something i said
That made you anxious yeah it made you upset
Made you wanna go and bitch to your Friends
Was it something that i said
Lately i fear there's no end in sight
711 runs after midnight
I know you you're never there but you might
Maybe if i try i could sleep it off
I see you when i sleep so i don't sleep at all
Slowly all my thoughts start singing my favorite song
Was it something i said
That made you anxious yeah it made you upset
Made you call me back at 3am
Just to tell me your defense
Was it something i said
That made you anxious yeah it made you upset
Made you wanna go and bitch to your Friends
Was it something i said
