

# Strong Island

## JVC Force

[Verse 1]

Listen to the situation my son  
I'm as serious as cancer, all fun is done  
For the time, the beat will correspond with the rhymes  
The two is valid, the best you will find  
Living in C.I. who the hell am I  
AJ Rok the juice, I get fly  
Cool with the rifting guy, keep a handle  
Cause if you don't I'll wax you down like a candle  
B-Luv, I'm a top biller  
Part time iller, permanent chiller  
Son of Sam killer, the horror in the villa  
Unlike the rest the best I am a thriller  
Kill it or shoot it, bite it and distribute it  
But either way the two's unconstituted  
Styling and wilding, constantly smiling  
We'll keep trooping in a place called Strong Island

[Verse 2]

I have a rep to protect, epitomes I dissect  
I was born in Brookyn, New York, but now Long I's in effect  
(That's word to herb) It's about out East  
We got the talent, eating it up like a Sunday feast  
Hearing from the doctor go get the priest  
Cause as of now, emcees you're deceased  
Straight from the mic all trouble released  
You want a slice like a cake I'll dis you a piece  
I need a scratch, now my battery's banging  
Sorry for the pause didn't mean to leave you hanging  
I'm good to go so that you know my words flow  
I got the voice that's choice kicking in this demo  
Getting fully fully paid with my man Andrew Jackson  
My bank account and Ben Franklin just maxing  
So I sip Coors while my fifties I sort  
Once in a while I'll lounge about in the gear that I bought  
Taking daily shopping sprees with major credit cards  
Buying up with all disregard  
Money ain't the object cause I got it to fling  
My lower clock is world of Bally and the upper's chess king  
Step up on the platform kid if you're so irate

We complete with defeat, it's not here to debate  
Test your skills if you will don't let us trouble your fate  
We're the almighty JVC Force the boss, we're so great  
Strong Island

[Verse 3]

Knocking out crews by the threes and fours  
Curt Cazal cut the beat while we take a short pause  
Like a video game, an errorless computer  
The styles profile, it's wild, improve to groove you  
Move you and soothe your every emotion  
Just put your trust in us and have devotion  
The voices on the set is your magic potion  
You'll rock to this like a ship that's in motion  
Other emcees take the Goldtone and panic  
Then sink the ship like it was the Titanic  
Billy Taylor known to rock the mic right  
Excelling through the air like the Concorde in flight  
I could chill to the max or hold my place like a kite  
But either way on any day I'm guaranteed to excite you  
Here's a preview of our latest debut  
What's coming next, don't try to answer cause you ain't got a clue  
You could bite (but it's not wise) all I'll do is sue  
At your expense me and B'll gain a million or two  
I chill with Riunite play the corner with brews  
Eat the flyest seafoods at restaurants that's new  
Roll down the windows in the limo while I'm cruising the deuce  
Point out a girl, diss her man then take her in for seduce  
Playing the field serving no kind of use  
Lingering on for the funky funky rhymes I produce  
Jerry Woodson's my name AKA AJ  
Just shut your mouth, in this situation you ain't got say  
Strong Island

[Verse 4]

You say wild boy I'm the cowboy so make my day  
Like Jesse James, self-proclaimed, me and A don't play  
Potent like a dime not a five or a tre  
You're commercial, I'm imported, under me you will stay  
On all things I pull strings, you're the board I'm the dart  
In the grocery store, I'm the food, you're the cart  
You're just my servant permanently designed for my needs  
You're a mutt and I'm a fighter classified as full breed  
How do you spell relief I spell it J-V-C  
To break it down even further B-E-E-L-U-V  
If you don't understand M-E you will S-double-E  
I am a R-A-P-P-E-R, a real dope emcee  
Yo reminisce with a bliss, to my style there's a twist  
And for the ladies, this jam is sealed with a kiss

This is live, no jive, high potent from L.I  
The trio made it, now you know it's got to be fly  
I think so and if you don't, meet us down at the bank  
Then hit the record store for Billboard and see how it ranks  
Take the lump out your throat, don't try to play like we're friends  
Cause all you know is that a group from Strong I did it again  
Don't tell your posse that you took me out cause you're a soft hot rock  
The fact to be do is that you're on my jock  
Don't try to play you didn't know that I knew  
I had to renovate my thing for duck suckers like you  
We all know how the story goes  
Time after time your jealousy's shown  
You're burning up inside but the Force don't care  
Signing off is A and B we're outta here like Belvedere  
Strong Island
