DON'T BRING THAT TROUBLE

[NEEDTOBREATHE](#)

Been down that broken road now
I been through that fire
These hands holding onto both sides of the wireI'm landing what I need to carry you through it
Stay back get on track
Cause I can't have you ruin itI said hold on
But don't hold me back
Hold on
But don't hold me back
Hold on
But don't hold me back
Just hold on
I had it rough I had to move for a while
Lock down the house and chain up with denial
I'm coming home with everyone is invited saying
Don't bring that trouble with you
Don't bring that trouble with youI found a way around you
It gon' take me higher
Last time the way I loved you I just wound up tired
I'm landing what I need to carry you through it
Stay back get on track
Cause I can't have you ruin itI said hold on
But don't hold me back
Hold on
But don't hold me back
Hold on
But don't hold me back
I said hold on
I had it rough I had to move for a while
Lock down the house and chain up with denial
I'm coming home with everyone is invited saying
Don't bring that trouble with you
Don't bring that trouble with you
Don't bring that trouble with you now
Don't bring that trouble with youI had it rough I had to move for a while
Lock down the house and chain up with denial
I'm coming home with everyone is invited saying
Don't bring that trouble with you
Don't bring that trouble with youI had it rough I had to move for a while
Lock down the house and chain up with denial
I'm coming home with everyone is invited saying
Don't bring that trouble with you

Don't bring that trouble with you
