

# Everlasting Country

## Upchurch

[Verse 1]'Round here there ain't no sandy beach  
No coconut drinks with a fancy name  
You ain't gon' see no penthouse suites  
But I can tell you somethin' better  
if you ask me  
It's a sun-baked rope swing, fishin' in the dark  
No bobber needed and I ain't got no night crawlers  
But you can crawl on me in the Stepside Z  
And we can drive where the mud and the asphalt meets  
[Chorus] Dear young gun go soak up the sun  
Til your neck turns red and your truck don't run  
Get those docks hotter than wood stove coals  
With a hometown girl that you always known  
Don't worry about that downtown buzz  
Cause the shine's more smooth where you come from  
No camera, no lights and no cut scenes  
Just everlastin' country Everlastin' country  
[Verse 2] What's a five star place to a wide open space  
What's an Uber driver to a loud Chevrolet  
What's a downtown girl to a woman like you  
Eyes 90s model Ford, two-tone teal blue  
What's red high heels to your little bare feet  
I don't want a reservation 'less it's somewhere in the weeds  
I don't wish upon a time, 'cause 'these times', I'm livin' these  
In a nowhere town in middle Tennessee  
[Chorus] Dear young gun go soak up the sun  
Til your neck turns red and your truck don't run  
Get those docks hotter than wood stove coals  
With a hometown girl that you always known  
Don't worry about that downtown buzz  
Cause the shine's more smooth where you come from  
No camera, no lights and no cut scenes  
Just everlastin' country Everlastin' country  
[Guitar Solo]  
[Chorus] Dear young gun go soak up the sun  
Til your neck turns red and your truck don't run  
Get those docks hotter than wood stove coals  
With a hometown girl that you always known  
Don't worry about that downtown buzz  
Cause the shine's more smooth where you come from  
No camera, no lights and no cut scenes  
Just everlastin' country Everlastin' country
