Heading Home (feat. Josef Salvat)

Gryffin

I won't stop, I won't look down
I tried all my tricks, I broke all-new ground
And in this final hour, look what I found
I got this whole damn thing the wrong way aroundCause people gonna judge and people gonna talk

And they can say what they like
Won't keep me up at night, no
People gonna judge and people gonna talk
And they can say what they like
Won't keep me up at night
Maybe we're still lost
Maybe we'll never learn

But as the dust settles down and I'm glad you're here I feel I'm finally headed homeMoments stuck all over you That's what I need and that's what we'll do

I could walk a mile in your shoes

I know how it feels to dance like youCause people gonna judge and people gonna talk

And they can say what they like

Won't keep me up at night, no

People gonna judge and people gonna talk

And they can say what they like

Won't keep me up at night

Maybe we're still lost

Maybe we'll never learn

But as the dust settles down and I'm glad you're here

I feel I'm finally headed home
