

# Planes

## Yuna

Driving fast but I am nowhere  
I'm at home when I am out there  
I speak louder when I'm silent  
Tryna be somewhere I'm not but I'm so confused, I'm just like you  
Ooo wipe the sleep from my eyes  
Wake up in another life  
I don't like planes  
But I love to fly Love to fly I got friends but I'm still shy  
Sometimes I laugh sometimes I cry  
I don't like planes  
But I love to fly  
Love to fly  
I feel lost but I'm surrounded  
By a million perfect strangers  
You're like lightning, I'm so grounded  
But I'm flying when I'm next to you I'm so confused, you might be too  
Ooo wipe the sleep from my eyes  
Wake up in another life  
I don't like planes But I love to fly Love to fly  
I got friends but I'm still shy  
Sometimes I laugh sometimes I cry  
I don't like planes But I love to fly Love to fly  
I'm so confused, I'm just like you  
Ooo wipe the sleep from my eyes  
Wake up in another life  
I don't like planes  
But I love to fly  
Love to fly  
I got friends but I'm still shy  
Sometimes I laugh sometimes I cry  
I don't like planes  
But I love to fly  
Love to fly
