

Life Must Go On

Quinn XCII

[Verse 1]

I'm in shambles since I blew my 16th candle
It's the little things that I can't handle
And we're still in July
Call me or reach me 'cause I need samples
A newspaper with no more scandals
Some loose change with no more vandals
Can I get up out my mind?

[Pre-Chorus: Quinn XCII]

And yeah, I know my world's burning down
Where to run? Who to call?
Even though my world's burning down
I know I can get through the fall

[Chorus: Quinn XCII & Jon Bellion]

'Cause life must go on (Go, go on)
One blink, then it's all gone
I said life must go on (Go, go on)
Even when you know it's all wrong
Whether you're high, whether you're low
Gotta keep on, be a part of the show
I said life must go on (Go, go on)
Go on, and you know I got you

[Verse 2: Quinn XCII]

In my mind, in the chemistry that I combine sits
A melody that's singing, "You're not fine"
But they can't hear me out
So I'm in a rapid conversation
To know if this is any normal sensation
The internet's saying I'm temptatious
And they can't hear me shout

[Pre-Chorus: Quinn XCII]

And yeah, I know my world's burning down
Where to run? Who to call?
Even though my world's burning down
I know I can get through the fall

[Chorus: Quinn XCII & Jon Bellion]

'Cause life must go on (Go, go on)
One blink, then it's all gone

I said life must go on (Go, go on)
Even when you know it's all wrong
Whether you're high, whether you're low
Gotta keep on, be a part of the show
I said life must go on (Go, go on)
Go on, and you know I got you

[Bridge: Jon Bellion]

Everything keeps on changing and I'm caught in the middle
I just keep getting anxious, yeah, I'm caught in the middle
Trouble turning these pages, yeah, I'm caught in the middle

[Chorus: Quinn XCII, Jon Bellion, Both]

'Cause life must go on
One blink, then it's all gone
I said life must go on
Even when you know it's all wrong
Whether you're high, whether you're low
Gotta keep on, be a part of the show
I said life must go on (Yeah)
Go on, and you know I got you
Life must go on (Life goes on)
One blink, then it's all gone (All gone)
I said life must go on (Go on)
Even when you know it's all wrong
So whether you're high, whether you're low
Gotta keep on, be a part of the show
I said life must go on (Life goes on)
Go on, and you know I got you

[Outro: Quinn XCII]

Whether you're high, whether you're low
Gotta keep on, be a part of the show
I said life must go on
Go on, and you know I got you
