

# Diamonds (feat. Young Jeezy)

## Fabulous

Shine bright like a diamond  
Shine bright like a diamond  
Shine bright like a diamond  
Shine bright like a diamond I turn my dark secrets into bright ideas  
I used to cry for help, I learned to wipe my tears  
I was scared to embrace, but now I fight my fears  
These hoes say I'm too much, it's only right I share  
Pressure makes diamonds, I was made to shine  
When life gave me lemons, I made lemonade with mines  
What's beef? Beef is when you make mistakes  
Like less burgers with ya buddies and more steaks for snakes  
My story just gets better, when you get to the end  
So when I'm at my worst, I know it's not the end  
I came from the dirt, made the cut and blew  
So when you put me in that right light  
What I do ?  
Shine bright like a diamond  
Shine bright like a diamond  
Shine bright like a diamond  
Shine bright like a diamond I'm shining religiously, Jesus pieces and crosses  
I paid for all of my toys, I don't owe any Santa Clauses  
I never finished school or completed no college courses  
Was taught to be a winner but I learned more from my losses  
Loses like, when you go is your friends gon' miss you  
Was it cause you beneficial or you been official?  
Condo at the top, one floor down from Heaven yo  
Hating is beneath me, I say that's the devil yo  
I'm tryna keep the faith, hanging in with hope  
Went to my jeweler, brought myself two angels on the ropes  
I came from the dirt, made the cut and blew  
So when you put me in that right light  
What I do ?  
Shine bright like a diamond  
Shine bright like a diamond  
Shine bright like a diamond  
Shine bright like a diamond Could say I always was the truth but that be lying a little  
You can't spell believe without a "lie" in the middle  
I always say it first, niggas trying to diddle  
But I got bigger shit to do, than to try and belittle  
Mind of a general, heart of a soldier  
That just mean I call the shots, but ain't afraid to take the shots  
Niggas gave it all they got, still couldn't take my spot

Don't get ya shorty got, and have to live out taken's plot  
I ain't give a fuck, now I would give whatever  
You only live once, but legacies live forever  
I came from the dirt, made the cut and blew  
So when you put me in that right light  
What I do? Shine bright like a diamond  
Shine bright like a diamond  
Shine bright like a diamond  
Shine bright like a diamond
