

# Move Together (feat. Majid Jordan)

## Somewhere Else

Tight hold  
I know it's a long road  
But I gotta stay close to you, baby  
I'm keepin' you close to me, baby Cause when I move, you move  
We move together  
We groove together  
Step one, two, together Our love won't stop  
This love can't stop  
We move together  
We groove together  
Our love won't stop  
We move together  
We groove together  
This love can't stop  
This road  
Young souls, we got high hopes  
I know it's a tightrope  
And I gotta stay close to you, baby  
I'm cuttin' it close, here, baby Cause when I move, you move  
We move together  
We groove together  
Step one, two, together Our love won't stop  
This love can't stop  
We move together  
We groove together  
Our love won't stop  
We move together  
We groove together  
This love can't stop  
My love won't stop  
No, it won't ever  
We'll find some way  
To get it back together  
Even when I'm lost  
I see myself in your reflection  
With your hand in mine  
I can't deny I'm better Our love won't stop  
This love can't stop  
We move together  
We groove together  
Our love won't stop  
We move together

We groove together  
This love can't stop
