

Candlelight

Zhavia Ward

[Intro]

Burn, burn, burn, burn

[Verse 1]

Dark space

I'm slipping into dangerous ways

Looking for a familiar face

Not too far from home

And it's all

It's all, all too much

When you can't see the shiny under the rust

So you hide away, sheltered from the rain

[Pre-Chorus]

And I've been getting tired of all these patterns

I see it written on the walls

And I've been walking through my own disaster

Thinking it's time to move on

[Chorus]

I don't wanna run from a bullet

Gotta leave my candlelight burning

If it goes out, I would lose it

Gotta let my candlelight burn, burn, burn

I feel something pulling

Gotta leave my candlelight burning

If it goes out, I would lose it

Gotta let my candlelight burn, burn, burn, burn

[Verse 2]

Here I lay

In my bed with everything I hate

Dreaming of a distant place

But I'm half way gone

Do you laugh or do you cry?

Do you give up or do you try?

Do you live a lie or live a life?

Who am I, who am I?

[Pre-Chorus]

And I've been getting tired of all these patterns
I see it written on the walls
And I've been walking through my own disaster
Thinking it's time to move on

[Chorus]

I don't wanna run from a bullet
Gotta leave my candlelight burning
If it goes out, I would lose it
Gotta let my candlelight burn, burn, burn
I feel something pulling
Gotta leave my candlelight burning
If it goes out, I would lose it
Gotta let my candlelight burn, burn, burn, burn

[Outro]

Bullet
Ooh-ooh, yeah
Burning
Lose it
Burn, burn, burn, burn
Bullet
Yeah
Burning
Lose it
Mm-hmm
Burn, burn, burn, burn
