

More Than OK (Skytech Remix)

R3HAB, Clara Mae & Frank Walker

Said it over and over in my mind
How do you say that it's over, for the last time?
Thinking maybe I should wait 'til the morning But how do you say that it's over for the last
time? We shared the same friends and apartment
But lately we don't talk
Only about other's problems
But never mention ours
I barely recognize those portraits
Hangin' on the walls
Tell me do you think we lost it?
'Cause they don't look like us
Feels like we wait for a bigger mistake
'Cause all the small ones are already made
And I hate how it's so hard to say
Just give me a reason to stay
'Cause I want something more than OK
I need something more than OK I need something more than a OK, OK, OK, OK
I need something more than OK
I need something more than a OK, OK, OK, OK It's like I miss feeling nervous when we touch
And I miss feeling certain about us
Thinking maybe we got tired of trying
So I'm 'bout to be honest, for once
We shared the same friends and apartment
But lately we don't talk
Only about other's problems
But never mention ours
I barely recognize those portraits
Hangin' on the walls
Tell me do you think we lost it?
They don't look like us Feels like we wait for a bigger mistake
'Cause all the small ones are already made (Are already made)
And I hate how it's so hard to say
Just give me a reason to stay
'Cause I want something more than OK
I need something more than OK I need something more than a OK, OK, OK, OK
I need something more than OK
I need something more than a OK, OK, OK, OK
