

Turn the Lights On

Little Big Town

Sucker punched, down for the count
They stole your thunder then your crown
Paralyzed, just hanging around
You better get up or get down
Put your money where you're talking
Let your assets do the walking
So what, the sky is falling
Get up or get down
In the shadows, outta time
You ain't bound and you ain't blind Turn the lights on, turn the lights on baby
Turn the lights on, lift your hands up
Turn the lights on, turn the lights on baby
Turn the lights on, lift your hands up
Lift your hands up
Swingin' from a chandelier
Ain't no trouble way up here
Shootin' through the atmosphere
Get up or get down
Ain't no time to hit the brakes
Flip the switch and let it shake
Wind it up while you're awake
Get up or get down
Get up, get down Turn the lights on, turn the lights on baby
Turn the lights on, lift your hands up
Turn the lights on, turn the lights on baby
Turn the lights on, lift your hands up
Lift your hands up Lift up yur hands, open your eyes
If were going, we're goin' live
Turn the lights on, turn the lights on baby
Turn the lights on, lift your hands up
Turn the lights on, turn the lights on baby
Turn the lights on, lift your hands up
Lift your hands up
Turn the lights on, turn the lights on
