

# Drink About

## Seeb, Dagny & Clean Bandit

Now and then, I get a little too drunk  
Say a little too much I do  
Now and then, I get a bit impatient  
Too much information I'm trying so hard to not to give a fuck  
Bleeding out on the living room rug  
But I'd pay a million bucks  
To think about anybody else but you Drink about anybody else but you  
Fuck about anybody else but you, you  
Can't stop picturing my lips on you  
No more waking up in your room  
Fuck I want anybody else but you  
I just wanna drink about, drink about  
Anybody but you  
No more waking up in your room  
No more waking up in your room  
Fuck I want anybody else but you  
Fuck I want anybody else but you  
No more waking up in your room  
No more waking up in your room  
Fuck I want anybody else but you  
I just want anybody but you  
No more waking up in your room  
No more waking up in your room  
Fuck I want anybody else but you  
Fuck I want anybody else but you  
No more waking up in your room  
No more waking up in your room  
Fuck I want anybody else but you  
I just want anybody but you  
Now and then, we got a little too hard  
Can I have my front yard, we do  
I bet, beggars can't be choosers  
Telling you the truth, you make it so damn hard to Just not give a fuck  
Bleeding out on the living room rug  
But I'd pay a million bucks  
To think about anybody else but you Drink about anybody else but you  
Fuck about anybody else but you, you  
Can't stop picturing my lips on you  
No more waking up in your room  
Fuck I want anybody else but you  
I just wanna drink about, drink about  
Anybody but you Drink about, drink about anybody but you

To drink about anybody but you  
Drink about anybody but you  
I just wanna drink about, drink about  
Anybody but you No more waking up in your room  
No more waking up in your room  
Fuck I want anybody else but you  
Fuck I want anybody else but you  
No more waking up in your room  
No more waking up in your room  
Fuck I want anybody else but you  
I just want anybody but you  
No more waking up in your room  
No more waking up in your room  
Fuck I want anybody else but you  
Fuck I want anybody else but you  
No more waking up in your room  
No more waking up in your room  
Fuck I want anybody else but you  
I just want anybody but you
