

One Touch (feat. AlunaGeorge and Rae Sremmurd)

Baauer

I will make you a sunset view
I will make it so you're gonna want to
Get your hands involved with me
I don't ever wanna be empty I just popped a Senzu bean
I said I just popped a Senzu bean
Mama where I leave my memory?
Probably the same place I left my ID (hey)
Y-3's, gave a young nigga wings
I sneeze, gave a young nigga steeze
Five G's, fall like leaves
In the spring Imma run it like police, we be clubbing
1800's, bubbling a nigga's stomach
Three girls, so that mean I'm in here juggling
She might have a man, I might have a girl
But neither one of 'em at the club so who give a fuck
Arrived on the scene with some booty shakin' hoes
And they not the twerk team
All these hoes got their hands on they knees
I said all these hoes got their hands on they knees
Goin' clubbin'
I beat the pussy up left the girl on crutches
I'm goin' clubbin'
You know that I'm bout to gonna slice up the dutchies
I'm goin' clubbin'
Tell me when she ready just hit me on my phone
Goin' clubbin'
If you got some foo' friends bitch don't come along
Let me make a scene
Ooh if you bad I might just put you in the ring
Ooh if you bad I might just buy you that machine
Ooh if you bad I might just dress you so clean
Woah, how you wear your hair
Make a nigga want to buy you this
Take you down to Paris and ice out your wrist
Chew you like a nigga did when he was a six
I make it look easy
All I really need is one touch, I want you to put it right here all night
All I need is one touch, I want you to put it right here
All I really need is one touch, I want you to put it right here all night
All I need is one touch, I want you to put it right here

You're gonna make me drag your ass over here
I don't mind, cause I've got no fear
In your eyes, it's written clear (it's written clear)
You're gonna make me, drop my Glock to the floor
I don't mind, but I need some more
So be kind and make me sure (make me sure)
I will make you a sunset view
I will make it so you're gonna want to
Get your hands involved with me
I don't ever wanna be empty
All I really need is one touch, I want you to put it right here on me
All I need is one touch, I want you to put it right here
