

# Saving My Love For You

[Kem](#)

Ever since time was young  
Ever since there were trees and sun  
Long before earth was new  
I've been saving my love for you(Saving my love)Long before waterfalls and rain  
Long before winters turned to spring  
There was light shining through  
And I was saving my love for you  
(Saving my love)Long before birds learned to fly  
You had reign over my life  
Before the mountains and streams  
I could feel you loving me babe  
Long before rainbows and marigolds  
And all that we've been through  
You were my dream come true  
And I was saving my love for you(Saving my love, saving my love)  
Long before land and sea  
Long before life had come to be  
Even all the angels knew  
I'd be saving my love for you(Saving my love)I'll be saving my love for you
