[Intro]

Yeah

La la la la la

[Chorus]

All my people, push back evil that's on sight

We gon' fight, we gon' rage against the dying of the light

I'm a giant, I feel like Goliath, but I'm righteous

Know we gon' make it, we don't need a psychic

So, if you gonna riot, do it right

They can't keep you silent, well alright

Shining like Orion, see the light now

If you gonna riot, do it right now, do it right

[Verse 1]

Ain't it true that all we need is love

I'm solar powered, I don't need a plug

Standing up ain't no lean in my cup

But I still feel depression creeping up

I'm in a dark place, it kinda feel like space  
I need more light for it to penetrate  
I need more life, I kinda feel like Drake  
I been in more fights than men in MMA  
Many faces showed me plenty hate  
But I been given grace that I can demonstrate  
Yeah, I'm straight, and I fix my face when I pen my fate  
Loneliness can happen in a very crowded room  
Especially when they know who you are but do not know you  
I seen many smiling faces that feel miserable inside  
And I admit I been that guy at times I'm pitiful too  
Shout to XXX I know that life has brought you stress  
I really mean it if I could I'd send an SMS  
Anyway, I know a way to send an SOS  
I put my message in my songs and pray that you are blessed

[Chorus]

All my people, push back evil that's on sight  
We gon' fight, we gon' rage against the dying of the light  
I'm a giant, I feel like Goliath, but I'm righteous  
Know we gon' make it, we don't need a psychic  
So, if you gonna riot, do it right  
They can't keep you silent, well alright  
Shining like Orion, see the light now

If you gonna riot, do it right now, do it right

[Verse 2]

Shining my light, little light

If you gonna fight, get it right

All of your problems, minimize

They will be solved in the dead of night

I wear all black like a Mennonite

I been this way since like Nick at Nite

All of my pain got legitimized

The son of David epitomized

What it means to be loved

They don't care about us

They disparaging us

Nancy Kerrigan us

But my advocate He ain't havin' it

Put all time in my blood

On my axis I spun

In the path of the sun

[Chorus]

All my people, push back evil that's on sight

We gon' fight, we gon' rage against the dying of the light

I'm a giant, I feel like Goliath, but I'm righteous

Know we gon' make it, we don't need a psychic

So, if you gonna riot, do it right  
They can?t keep you silent, well alright  
Shining like Orion, see the light now  
If you gonna riot, do it right now, do it right

[Interlude]

Lighting up the night time  
Imma let my light shine  
That?s how we do on my side  
That?s how we do on my side  
Lighting up the night time  
Imma let my light shine  
That?s how we do on my side  
That?s how we do on my side  
Lighting up the night time  
Imma let my light shine  
That?s how we do on my side  
That?s how we do on my side  
Lighting up the night time  
Imma let my light shine  
That?s how we do on my side  
That?s how we do on my side

[Outro]

God and His Word all through scripture

They're compared to the sun

As soon as the sun gets out of the the centre of the solar system

Everything crashes. Everything goes chaotic

God is light and there is absolutely no darkness in him

The light shines in the darkness and yet the darkness did not overcome it
