

# Lost in the Storm

## Thunderstorm Artis

[Verse 1]

I remember when I was young  
I would stand out on the road  
Hear your story told, of days of old  
And the people gathered 'round  
You were the talk of the town  
I know

[Verse 2]

Used to think it was better if I  
Lived my life inside my mind  
Somewhere out there on my road  
I got lost out in a storm  
Somewhere out there on my own in the cold

[Chorus]

Couldn't run, couldn't run, couldn't run from what I've done  
I couldn't hide, couldn't hide, couldn't hide I was the broken one  
I got lost  
In a storm  
I got lost  
In the storm, oh

[Verse 3]

Used to sit and reach my hands  
Out into this world just to understand  
Why I'm left here in this [?]  
[?]  
Oh, I wonder where it all begins

[Chorus]

Couldn't run, couldn't run, couldn't run from what I've done  
I couldn't hide, couldn't hide, couldn't hide I was the broken one  
I got lost, lost in a storm  
I got lost, lost in the storm, oh

[Bridge]

When the day woke to new  
I was standing next to you  
And all the things I say and do  
To carry on  
To carry on

[Chorus]

Couldn't run, couldn't run, couldn't run from what I've done

I couldn't hide, couldn't hide, couldn't hide I was the broken one

[Outro]

When the day woke to new  
I was standing next to you  
And all the things I say and do carry on  
To carry on  
Carry on  
To carry on
