

# The Upsetter

## Metronomy

I've gotta beam my message to ya  
Straight from the satellite  
'cos girl we're meant to be together  
Yeah girl we're meant to be together  
I'm back out on the Riviera  
It gets so cold at night  
I've gotta beam my message to ya  
I've gotta beam my message to ya  
I've gotta beam my message to ya Should've known from the call that you let up  
You're not alone when you're still in love  
And everyone says that I'm the upsetter  
But I'm alone and I'm so in love  
I've got it bad and now this heart beats black  
So black, oh yeah  
We live in 1992 here  
Playing sleeping satellites  
Playing Prince and Deacon Blue, yeah  
Playing "I Will Always Love You", yeah  
But when I think of me and you  
Get shivers down my spine  
I've gotta beam my message to ya  
I've gotta beam my message to ya Should've known from the call that you let up  
You're not alone when you're still in love  
And everyone says that I'm the upsetter  
But I'm alone and I'm so in love  
I've got it bad and now this heart beats black  
So black, oh yeah  
Should've known from the call that you let up  
You're not alone when you're still in love  
And everyone says that I'm the upsetter  
But I'm alone and I'm so in love  
I've got it bad and now this heart beats black  
So black, oh yeah You're really giving me a hard time tonight  
You're really giving me a hard time tonight  
Why you giving me a hard time tonight?  
You're really giving me a hard time tonight  
You're really giving me a hard time tonight  
You're really giving me a hard time tonight  
You're really giving me a hard time tonight  
Why you giving me a hard time tonight?  
You're really giving me a hard time tonight
