

Drifting Away

Krept & Konan

[Verse 1: Konan]

Ah, they say it's all about the timing ('Bout the timing)
Got everybody talking 'bout the signing ('Bout the signing)
While I'm here thinking 'bout the pressure ('Bout the pressure)
But I guess pressure makes diamonds (Makes diamonds)
Mum used to pray that I stopped banging (Stop banging)
MOBOs, now the woman won't stop bragging (Stop bragging)
I know they hate it that we shining (That we shining)
But we don't tuck our chains unless we fighting (Fighting)
Thinking back on how it felt (How it felt)
When you're always hearing no you start to doubt yourself (Doubt yourself)
It's even harder when there ain't nobody round to help (Round to help)
Feeling lost, but that's when I really found myself (Found myself)
On Karl's grave, I swear I never let that stop me (Stop me)
If time is money, tell them watch me (Watch me)
My mum's heart broke when they got Karl
Imagine if they would have got me (Imagine)

[Hook: Mica Jazelle]

They say you've been drifting away from me
Drifting away from me (Na na na na na)
They say you've been drifting away from me
Drifting away from me, drifting away

[Verse 2: Krept]

Pound for pound, you out of your depth (Depth)
I just got mummy out of her debt (Debt)
The money only gonna make me worse (Worse)
The cheques looking like a date of birth (Argh)
It's mad how Kone lost it all and got it back up
Still ended up ballin', you rappers playing catch up
Don't stump me those bottles boy, it might fuckin' stack up
All you niggas lying, so I'ma murder Mufasa
Bracka, bracka, I'ma murder a rapper
For saying they're the best, what the fuck, are we dead?
Top of the rap game last time I checked
Now you can smell money on us, we've been counting them cents
Used to pay for Nike, now Nike pay for us
Yeah I can afford a maid now but I still ain't made enough
Get a million and up, I probably still wouldn't rest

How are you the best dawg if you up against the vets?

[Hook: Mica Jazelle]

They say you've been drifting away from me
Drifting away from me (Na na na na na na)
They say you've been drifting away from me
Drifting away from me, drifting away

[Outro: Mica Jazelle]

Drifting away, drifting away
They say that you've been drifting away from me
Drifting away from me (Na na na na na na)
They say you've been drifting away from me
Drifting away from me, drifting away
