

Let It Grow (Celebrate the World)

Ester Dean

Plant a seed inside the earth
Just one way to know it's worth
When we celebrate the world,
Celebrate the world (come on and)
Celebrate the world
Celebrate the world
All you gotta do
All you gotta do is live your life be true,
Live your life, be true and
Never be afraid, never be afraid
To grow, grow
It don't matter how you got it,
It's yours now don't you hide it
Let it grow, let it grow
Let the love inside you show it
Just one way to know you're worth it
Let it grow, let it grow
Just believe and you're almost there
Use your heart to show you care
Come on and celebrate the world,
Celebrate the world come on and
Celebrate the world Yeah, Yeah, Yeah, Yeah
All you gotta do, all you gotta do is,
Live your life be true, live your life be true and
Never be afraid, never be afraid
To grow, grow
It don't matter how you got it,
It's yours now don't you hide it
Let it grow, let it grow
Let the love inside you show it
Just one way to know you're worth it
Let it grow, let it grow
It's your turn now, to show your worth now
Open up your heart and let it grow
It's your turn now, to show your worth now
Open up your heart and let it grow
It don't matter how you got it
It's yours now don't you hide it (don't matter)
Let it grow, (yeah) let it grow
Let the love inside you show it
Just one way to know you're worth it

Let it grow, let it grow
