

# Only Love

## Andra Day

So I've learned a lot of things in the past year or two  
Like there's different types of love that I should know about  
So my question is this  
What kind of love is it  
That can leave me all alone in some bar  
With just a six point sweetly laughing at my foolish heart  
Only love can break your heart  
Like poisonous darts  
Wu you apart  
Then only love  
Can save the day  
So unexplained  
So what do you say  
And if it's all the same to you this kind of love  
It taught me an ugly truth, I was guilty of  
And so my question still remains  
What kind of love again  
Can leave him all alone in his car  
With just the radio blatin'  
Singing to his foolish heart  
Only love can break your heart  
Like poisonous darts  
Wu you apart  
Then only love  
Can save the day  
So unexplained  
So what do you say  
So a poor man's spin is what I got and gave  
To my dismay  
Could this have really been love  
Long as we're talking  
Is one real, one fake  
Like a silly game  
I think we've all had enough  
It's left us all alone in the dark  
Asking all of these questions  
About all our foolish hearts  
Only love can break your heart  
Wu you apart  
Oh yeah
