

Grew Up in the Country

Jameson Rodgers

Have you ever had a sunset dropping on a cotton field
Talk with God make you feel like it's gonna be alright
Have you ever jumped barb wire, built a bonfire
Under stars pondered?life?over?cold Bud Light
Whoa,?that's what I'm?doing tonight
Whoa

I grew up in the country
Where you only gonna reap what you sow
It ain't always sunny
But that's what helps everything grow
I believe time is money
So I'm out here taking it slow
I think Heaven's above, and down here below
The answer is love, oh but what do I know
I grew up in the country
Have you ever had a sweetheart falling for a guitar
Singing songs in the dark, thinking she's the marrying kind
Whoa, that's what I'm doing tonight
Whoa

I grew up in the country
Where you only gonna reap what you sow
It ain't always sunny
But that's what helps everything grow
I believe time is money
So I'm out here taking it slow
I think Heaven's above, and down here below
The answer is love, oh but what do I know
I grew up in the country

I'm just a good ole boy thinking out loud
I ain't no better y'all, I'm just proud

I grew up in the country
Where you only gonna reap what you sow
It ain't always sunny
But that's what helps everything grow
I believe time is money
So I'm out here taking it slow
I think Heaven's above, and down here below
The answer is love, oh but what do I know
I grew up in the country

I grew up in the country
Country
