Holla At the DJ

[Coco Jones](#)

Fresh off the light with my brand new shoes on

They ain't even out yea

Let me introduce 'em

I do my two step

Hey right in front of yea

Meet me at the door

It's kin a crazy

Cuz I'm popular

Holla at the DJ

And tell him turn it up

Holla at the DJ

And tell him turn it up

Holla at the DJ

And tell him turn it up

Holla at the DJ

And tell him turn it up

You see me turn it up

And make it supersize

We about to burn it up

Just call me firefly

So what, so what

Talk about it

You want you want

... know about it

They want they want

They wanna see about it

They wanna stand around all night about it

Amplify the recipe

Everytime you look at me

I love it when I hear the sound

Turn me music up for me

DJ, are you listening

Let the beat drown us out

Holla at the DJ

And tell him turn it up

Holla at the DJ

And tell him turn it up

Land in my spaceship

We didn't come to play

Take over your area

We do this everyday

Call your self a Martian

Well I'm from Jupiter

Spin around you so fast

You can never catch me up

Holla at the DJ

And tell him turn it up

Holla at the DJ

And tell him turn it up

Cuz I like when the beat drop

Play that record for me

Clap my hands make me dance

Rockin' on the floor

So what, so what

Talk about it

You want you want

Know about it

They want they want

They wanna see about it

They wanna stand around all night about it
