

# Higher (feat. Labrinth)

## Sigma

I have given all myself  
All that I have left to give  
All the reasons I confront  
No more reason left to live  
If that ain't enough  
Oh, no no  
Tell me why it's not enough Even when you let me down  
I forgive you in the end  
What goes round comes back around  
So I'll wait for you till then  
If that's not enough, oh no no  
Tell me what would be enough, be enough, be enough, be enough  
And what is love  
If there's still a chance of something  
And what is love  
If it's building up to nothing  
But never see how far we've come  
We keep looking at the sun  
So what is love  
If we're still searching for something? Get higher, higher, higher  
We keep looking up  
Higher, higher, higher  
But we're still not high enough  
Higher, higher, higher  
We keep looking up  
Higher, higher, higher  
But we're still not high enough  
Take my heart back from your hands  
And my pride back from your sheets  
I'll believe while I still can  
Taking back the best of me  
If this ain't enough, no, no, no  
Then I guess I've had enough, had enough, had enough, had enough And what is love  
If there's still a chance of something  
And what is love  
If it's building up to nothing  
But never see how far we've come  
We keep looking at the sun  
So what is love  
If we're still searching for something? Get higher, higher, higher  
We keep looking up  
Higher, higher, higher

But we're still not high enough  
Higher, higher, higher  
We keep looking up  
Higher, higher, higher  
But we're still not high enough
