

Some Say

Rascal Flatts

There's that star
The one they said we'd never reach
And just close your eyes
There's the missing moon
There's the Milky Way
Heaven's straight ahead
We'll be there today
Rainbows right and left
Sunshine everywhere
If it couldn't be, baby,
How did we get here?
Some say we'll never get it off the ground
Some say we'll never make it out of town
That some day we'll end up a world apart
And some say we're a couple crazy kids
And some say that's exactly what they did
And I say you got to go with your heart
And baby, look where we are
There's that home
The one they said we'd never share
And just close your eyes
There's a picket fence
There's our mailbox
Puppy on the porch
And roses up the walk
Shiny minivan
Kids in every seat
Someday we'll look back and say
It wasn't just a dream
Some say we'll never get it off the ground
Some say we'll never make it out of town
That some day we'll end up a world apart
And some say we're a couple crazy kids
And some say that's exactly what they did
And I say you got to go with your heart
And baby, look where we are
Some say we'll never get it off the ground
Some say we'll never make it out of town
That some day we'll end up a world apart
And some say we're a couple crazy kids
And some say that's exactly what they did
And I say you got to go with your heart
And baby, look where we are
Some say--oh, oh
Some say

Some say
Yes they do
Some say
Oooo, Oooo, Oooo
Some say, some say, some say
Some say, some day, some say
