

# December Love

## New Kids On the Block

Oh-oh, mm-mh  
Yeah, yeahHey love, come on over here  
Look up in the sky, see how bright it's shining for us  
That one right there  
That's the star we wished on on that winter when we  
Fell in love in December  
This is the time we get to rememberSo hold me like it's our last goodbye  
Touch me just like it's the first time  
Kiss me and if you stop to cry  
It's okay, I get emotional too  
We got a love that lasts forever  
Through the stormy weather  
We got that December love  
Look at how far we've come together  
We made it through November  
We got that December love[?] through minor colds  
'Cause even when it's snowing I'll be there  
To keep you warm till it stops  
But we're inside now, so...  
Put on a record with stylistics  
Or New Kids On The Block  
This December  
We're gonna make it one to rememberSo hold me like it's our last goodbye  
Touch me just like it's the first time  
Kiss me and if you stop to cry  
It's okay, I get emotional too  
'Cause we got a love that lasts forever  
Through the stormy weather  
We got that December love  
Look at how far we've come together  
We made it through November  
We got that December loveHolidays are here  
And with every passing year  
I love you more and more  
(I love you) More and moreWe got a love that lasts forever  
Through the stormy weather  
We got that December love  
Look at how far we've come together  
We made it through November  
We got that December loveSo hold me like it's our last goodbye  
Touch me just like it's the first time  
Kiss me and if you stop to cry

It's okay, I get emotional too We got a love that lasts forever  
Through the stormy weather  
We got that December love  
Look at how far we've come together  
We made it through November  
We got that December love
