

Enemy

Oliver Tree & Whethan

[Verse 1]

When you underrate your value
You underestimate how to
Be your own
And when you do and when you don't

[Chorus]

Oh so, that's why you befriended me
She's a super villain working with the enemy
God damn, that'll be the death of me
She was always one step ahead of me

[Verse 2]

No regrets, she did what she wanna
She said golden days were upon us
But she turned summer into autumn
She was always one step ahead of me

[Chorus]

Oh so, that's why you befriended me
She's a super villain working with the enemy
God damn, that'll be the death of me
She was always one step ahead of me

[Bridge]

And when you do and when you don't
And when you do and when you don't

[Chorus]

Oh so, that's why you befriended me
She's a super villain working with the enemy
God damn, that'll be the death of me
She was always one step ahead of me
