

# Higher Place (feat. Bob Marley)

## Skip Marley

[Intro: Bob Marley]

There's something higher  
I mean, is not we're deal with reality or whether it happened  
There's something higher than man [?]  
There's something that no man cannot stop because all nation are gon' gather and all nation are  
gon' say "Yes, you're right"  
[?]

[Verse 1]

Oh, I'm lost I need a map  
Though I slip get back on track  
See the future, clear your path  
'Cause we go forward, never back (Yeah)

[Pre-Chorus]

Little weary boy don't run up  
Listen to the voice in your heart  
I gotta fess up, no hesitation  
It's a vibration, ready with my arms up

[Chorus]

Take me to the higher place  
I gotta run to a higher stage  
There's nowhere else to go, light the way  
Pack it up and roll, I'm on my way  
Take this to the higher place  
I gotta run to a higher plain  
There's nowhere else to go, light the way  
Pack it up and roll, I'm on my way

[Verse 2]

How much longer can we play?  
Man, they've run and gone astray  
There won't be another day  
If you don't decide to make a way

[Pre-Chorus]

Little weary boy, don't run up  
Listen to the voice in your heart  
I gotta fess up, no hesitation  
It's a vibration, ready with my arms up

[Chorus]

Take me to the higher place

I gotta run to a higher stage  
There's nowhere else to go, light the way  
Pack it up and roll, I'm on my way  
Take this to a higher place  
I gotta run to a higher plain  
There's nowhere else to go, light the way  
Pack it up and roll, I'm on my way

[Outro]

There's something higher  
I mean, is not we're deal with reality or whether it happened  
There's something higher than man [?]
