

WAY BACK

Niko Moon

Remember how we used to paint this town
Goin' muddin' with the windows down
Drinkin' liquor out your old man's stash
Man we caught hell for that
Played ball together
Got high together
Everything, man we even found God together
Through it all, yeah we're still the same
Ain't nothin' changed
Yeah we go way back, way back
Every time, man it's just like that
Way back, way back
Raise 'em up for the times we've had
Them wild nights
Few bar fights
Yeah we even seen our fair share of blue lights
Way back, way back
Every time, man it's just like that
Way back
Remember when we worked the graveyard shift
Making just enough to pay the rent
Friday nights with our fake IDs
Sneaking in, you and me
Go way back, way back
Every time, man it's just like that
Way back, way back
Raise 'em up for the times we've had
Them wild nights
Few bar fights
Yeah we even seen our fair share of blue lights
Way back, way back
Every time, man it's just like that
Played ball together
Got high together
Everything, man we even found God together
Through it all, yeah we're still the same
Ain't nothin' changed
Yeah we go way back, way back
Every time, man it's just like that
Way back, way back
Raise 'em up for the times we've had
Them wild nights
Few bar fights
Yeah we even seen our fair share of blue lights
Way back, way back
Every time, man it's just like that
Every time, man it's just like that

Every time, man it's just like that
Way back
