

Opposite of H2O

Drag-On

Yo this nigga Drag-On burn niggas
Flame niggas, potch niggas
Sautee niggas, skin scorch niggas
You could be any complexion, black, caucasian
We spit razors in kiloid faces
Like ear to ear, eye to eye, lights out
Cross the throat, couldn't say you gave her mouth to mouth
Better keep your teeth together
'Cuz when we put our heat together

We tie 'em up with they vest and hit 'em up all in they chest
We stack ones, trick on bitches, fuckin' bitches
Leavin' bitches, don't have no problem buckin' bitches
I kill a chick steal from my crib
Right in front of her child with no feel for the kid
Gon' kill that bitch, not now, but right now, go 'head nigga, do it
Blau, all up in her nightgown
Feed the crib, fed description, kid wit' no meat on his rib
But keep the heat by it, so when y'all creep keep quiet

You can stand the fuck up if you fire your gun, nigga
But sit the fuck down, you ain't firin' one, nigga
Yeah, we set fire in cribs and fire in whips
Y'all niggas use the fire when you cookin' your bricks

Other niggas use the fire when they lightin' they spliff
I want my tires on fire when I'm pushin' a whip
I put my block on fire with the product I sell
It's the 'Opposite of H2O', hotter than hell

While y'all niggas pop the Mo', I inhale smoke out the optimo
Choke, hydro 'til it's time to go
Cheeba my smoke, I plays ping pong
If y'all hooked on phonics, that mean
Here's ten, buy your own chronic
We buy cars, 4, dot after it, get gas in it
Go fasten it, then crash in it
Me and Jadakiss, truck kiddin' with the chip
Burnin' up and make 'em, sorry officers I only got my permit

To the fake cats, who shank niggas, break bats
Stay 'woke 'cuz make hats, take naps

Put him to sleep faster than a needle
I come with four niggas stuffed in the beetle
With some bats and beat you
You a bad bitch, I had to meet you, had to pop it
Bounce before I fuck broads, I unlock it
And back to the block to check the spot quick
We snatch niggas reups and hit 'em for they bodies
Tell 'em keep the profits

You can stand the fuck up if you fire your gun, nigga
But sit the fuck down, you ain't firin' one, nigga
Yeah, we set fire in cribs and fire in whips
Y'all niggas use the fire when you cookin' your bricks

Other niggas use the fire when they lightin' they spliff
I want my tires on fire when I'm pushin' a whip
I put my block on fire with the product I sell
It's the 'Opposite of H2O', hotter than hell

Yo, first it's Drag, dash on
Then it's the cash, fuck it all, I've been in cabs
Not alone, but with the mask, with the heat
Drop me on 42nd street, quickly
With the crackers, tell 'em pack it, out they pockets
Hurry up, all this walkin' around I'm gonna stop it
This gun I'm gonna pop it
'Cuz at this time 12 p.m., my gun is all you might be seein'
If you sight seein'

You might be in a hearse, then casket, then church
Then you aten by the maggots
(Eaten)
Fuck you hatin' bastards
It's over for y'all niggas once Drag take his mask then
Y'all know it's straight platinum
Earth, wind, water, the 4th yo, is the Opposite of H2O
That's one of the elements I use to melt the mic
Ryde or Die, well, we gon' Ruff Ryde and keep the family tight

You can stand the fuck up if you fire your gun, nigga
But sit the fuck down, you ain't firin' one, nigga
Yeah, we set fire in cribs and fire in whips
Y'all niggas use the fire when you cookin' your bricks

Other niggas use the fire when they lightin' they spliff
I want my tires on fire when I'm pushin' a whip
I put my block on fire with the product I sell

It's the 'Opposite of H2O', hotter than hell
