Usher

Y'all know what this is! My mind was changed (Was changed) I'm glad you made (You made)

Intoxicate

Your vibe's amazing

Feel the love in the air, baby, you know (You know, you know)

In a rush, we be letting the time go

You're gonna have to show me now

'Cause I done had one too many drinks

And I know that you feel me the way I, been feelin' you

And it's cool, that you

You got a motive, and I think I like it

I know all your, insecurities

I hope that you're open

My body gives notice

And I want your, energy, girl, gimme that (Girl, gimme that)

Good lovin', no questions

Reach out, and you'll touch me

Bad habits, don't judge me

Just don't waste my time

Good lovin', no questions (Ooh)

Reach out, and you'll touch me (Ooh)

Bad habits, don't judge me (Ooh)

Just don't waste my time Ooh, late night

Coffee in the morning, what a date night

Better play right

Don't be trippin' when you leanin', better lay right (Baby)

I know you wanna, go there

I see it, stop frontin', come here

I know you can drive it, chauffeur

Anticipate your touch down (Now-wow)

Put me down like right now (Now-wow)

Let's be lovers and friends

Let's rendezvous

Boy, I got plans for you (Yeah)

'Cause I'm motivated

I'm yours for the taking

Look no further, I got what you need (Haha, haha, ooh)

Baby, I'm open (Baby)

You've got my attention

And even if

Oh baby, come get me there

Good lovin', no questions (Good lovin', baby, yeah)
