The Night Out (A-Trak Remix)

Martin Solveig

Hey baby, what's that sound?
I make a few steps and I fall to the ground.
It's a long shot but darling couldn't love any more,
Come on come on
Hey baby, give it a try.
I can find an answer if you wanna know why
I want the nerve to give another play to the song
Come on, come onHow does it sound if we spend the night out?
How does it sound if we spend the night out?
Hey baby, what's that sound?
I make a few steps and I fall to the ground.
It's a long shot but darling couldn't love any more,
Come on come on
Hey baby, give it a try.
I can find an answer if you wanna know why
I want the nerve to give another play to the song
Come on, come onHow does it sound if we spend the night out?How does it sound if we spend the night out?
How does it sound if we spend the night out?
How does it sound if we spend the night out?
Come on, come onHow does it sound if we spend the night out?
How does it sound if we spend the night out?
How does it sound if we spend the night out?
How does it sound if we spend the night out?
How does it sound if we spend the night out?
Hey baby, what's that sound?
I make a few steps and I fall to the ground.
It's a long shot but darling couldn't love any more,
Come on come on
Hey baby, give it a try.
I can find an answer if you wanna know why
I want the nerve to give another play to the song
Come on, come onHow does it sound if we spend the night out?
How does it sound if we spend the night out?
