

# Woman Woman

## AWOLNATION

Last night I fell apart  
Broke from my swollen heart  
Born at a simple time  
Raised with a simple mind You may be a natural woman  
You may be a natural woman  
You may be a natural woman  
You may be a natural woman I may be worthless without you  
I'll never decide to replace you  
Amen, the worst is behind us now  
Woman, woman (oh)  
I may be worthless without you  
I'll never decide to replace you  
Amen, the worst is behind us now  
Woman, woman  
Woman  
You may be a natural woman  
You may be a natural woman  
You may be a natural woman  
You may be a natural woman Last night I fell apart  
Choked on my drunken heart I may be worthless without you  
I'll never decide to replace you  
Amen, the worst is behind us now  
Woman, woman  
I may be worthless without you  
I'll never decide to replace you  
Amen, the worst is behind us now  
Woman, woman  
Woman.  
You may be a natural woman  
You may be a natural woman  
You  
(Ah-ah-ah) Who's that woman, woman?  
Is that woman, woman?  
Be my woman, woman  
Won't you see me in the dark? Who's that woman, woman?  
Is that woman, woman?  
Be my woman, woman  
Won't you see me in the dark? I may be worthless without you  
I'll never decide to replace you  
Amen, the worst is behind us now  
Woman, woman (oh)  
I may be worthless without you

I'll never decide to replace you  
Amen, the worst is behind us now  
Woman, woman  
Woman, woman You may be a natural woman  
You may be a natural woman  
You may be a natural woman  
You may be a natural woman
